

Gelweave™ | Gelsoft™ Plus

Pioneering the Future

Pioneering the Future; The Solutions you need

DURABILITY &
RELIABILITY

Proven Excellence

- ▶ Over 40 years of experience in the development of Open Surgical Devices.
- ▶ Physicians trust in Gelweave for its excellent performance¹.

SAFETY &
EFFICACY

Feel Confident

- ▶ The Körper knitted structure of Gelsoft Plus demonstrated superior dilation resistance compared to warp knitted grafts whilst retaining distinctive fray resistance and handling².
- ▶ Feel secure in Gelweave and Gelsoft Plus with 98% of cases reporting no suture hole bleeding³.

ADAPTABILITY
& VERSATILITY

The Broadest Range

- ▶ An extensive range of grafts with a solution for every segment of the Aorta.
- ▶ Terumo Aortic is 100% committed to addressing your needs and advancing Aortic care.

Gelweave™ Confident Aortic Repair
Built with precision, you can trust in Gelweave for the confidence to confront the challenges of aortic repair.

Gelsoft™ Plus Feel the Difference
Designed with care, feel the difference with Gelsoft Plus, the knitted aortic repair solution for your patients.

Gelweave™ | Gelsoft™ Plus
'Excellent Performance'¹
Average Intraoperative Performance rating on a customer survey.

99%
Hemostasis⁴

1. Based on internal Terumo Aortic data from PANTHER study. Physicians reported an average overall intraoperative performance rating of "Excellent" in Gelweave, Gelweave Valsalva and Gelsoft Plus cases. Data based on completed surveys at time of publishing.
2. Walker D et al. (1995). Novel structure for a polyester vascular prosthesis with improved mechanical properties. *Society for Biomaterials*.
3. Based on internal Terumo Aortic data from PANTHER study. Physicians reported no suture hole leakage in 98% of both Gelweave and Gelsoft Plus cases. Data based on completed surveys at time of publishing.
4. Based on internal Terumo Aortic data from PANTHER study. Physicians reported no graft leakage in 99% of both Gelweave and Gelsoft Plus cases. Data based on completed surveys at time of publishing.

The Decision is Yours..

FLEXIBILITY

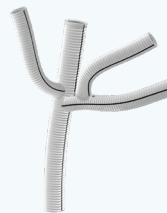

Debranching Grafts

Wide range of debranching grafts for your procedures.

Hybrid and Debranching procedures are subject to local regulatory approval.

Matalanis
Trifurcate Arch Grafts with Side Branch

Reece
Trifurcate Arch Graft with Side Branch and Radiopaque Markers

Fleischman
Trifurcate Arch Graft with Side Branch and Radiopaque Markers

"(The) 'branch-first continuous perfusion' technique which avoids both deep hypothermia and circulatory arrest. This brings us closer to the goal of arch surgery without cerebral or visceral ischaemia and the morbidity of deep hypothermia"⁵

PRECISION

Hand crafted, **with care.**

Where technology meets art, all our devices are meticulously hand sewn, with intricate detail and precision. All devices are subject to rigorous inspection by our In-Process Inspection team.

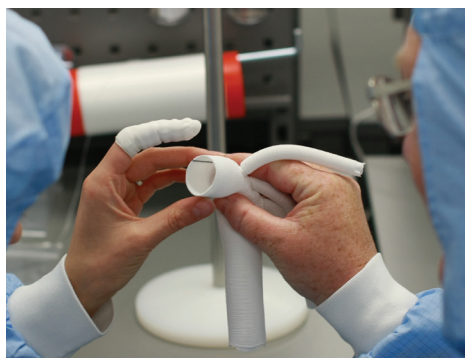

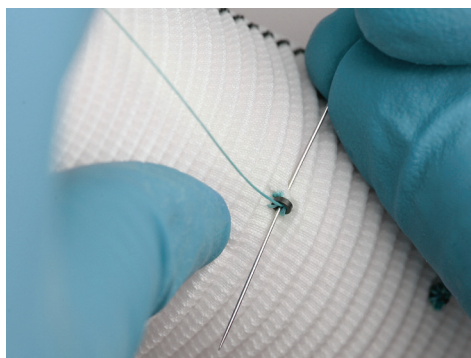

DESIGN

Designed **with Clinicians, for Clinicians.**

Many innovative solutions have been developed in conjunction with leading clinicians globally. Through the US Pioneer program*, Terumo Aortic will continue to innovate and expand.

** The Pioneer program is currently only available in the US. Please contact your local representative for more information.*
