**71%**  
RelayPro NBS Implanted<sup>1</sup>  
(40/56)

1. Starnes et al. (2024). Early survival benefit of a low-profile endograft in blunt traumatic aortic injury. *Journal of Vascular Surgery*.  
\* Gore® TAG® Conformable Thoracic stent Graft with Active Control System and GORE® DrySeal Sheath instructions for use. Valiant® Thoracic Stent Graft with the Captivia® Delivery System Instructions for use. Comparison based on the smallest available diameter

# The Transection Kit: Simplifying Procedures with Confidence

Meeting the unique demands of aortic transections **with precision** by increasing sizing options, **reducing the risk of overtreatment.**<sup>1</sup>

Device	Diameter	Nominal Length	Quantity
28-N4-22-099-22U	22*	100	2
28-N4-24-099-24U	24	100	1
28-N4-26-104-26U	26	100	1

**88%**

100mm length device  
implanted<sup>1</sup>

(49/56)

**21%**

22mm proximal  
diameter device  
implanted<sup>1</sup>

(12/56)

## Why Choose the RelayPro Transection Kit?

### Optimized Sizes

Standardized dimensions specifically selected for transection cases

### Simplified Selection

Preselected sizes for quick, easy and precise choices

### Cost Efficiency

All-in-one savings over separate grafts
